

It is appalling that the population are being forced to consume these dangerously corrosive and cumulative hazardous waste pollutants aka 'water fluoridation' and even more appalling and brings into serious question, the integrity and agenda of any Government, Dental and Medical Associations, others and their interests to inflict this on an entire population. All the extensive evidence of cumulative harm from world experts has been ignored/ridiculed/suppressed and the fact that Australia wide is in absolute dental crises proves it is an abysmal failure in any case.

These hazardous waste pollutants are similar Australia wide polluting our drinking water. ***Raw Fluoridation Chemical Analyses - Freedom of Information - South Australia Water Corp.*** Raw fluoridation chemical analyses of South Australia's drinking water, listed below. This data has been scanned from original documents provided to Sapphire Eyes Productions by Dr. Andrew Harms & Ann Bressington. These documents show the toxic, heavy metal contaminants contained in the chemicals used to fluoridate your drinking water. These include lead, arsenic, mercury, uranium & more. and: The fertilizer, aluminium & steel industries produce massive quantities of fluoride that used to be industrial waste. To save large amounts of money, they came up with the idea of dumping this industrial waste into drinking water. Now, instead of having to pay to have the fluoride waste hauled away, they are paid to poison us. <http://www.just-think-it.com/no-f.htm>

WUC Admin Advise Source of Fluoride in Drinking Water

In this video Windsor Utilities Commission's Chief Operating Officer, John Stuart, answers Councillor Dilkens' question - does the fluoride come from the smoke stack scrubbers of factories? YES confirms the WUC admin. But Dr. Heimann has stated otherwise to the Tecumseh, Amherstburg and Lasalle council members.

Far too often Public Health and Dental Health Authorities claim fluoride is naturally occurring when trying to convince municipalities to buy in to artificial water fluoridation. But naturally occurring calcium fluoride is NOT what is used in water fluoridation, calcium fluoride is present in the water before the addition of hydrofluorosilicic acid. Hydrofluorosilicic Acid is a waste product from the phosphate fertilizer industry - it is classified as HAZARDOUS WASTE before it is tanked untreated and shipped to municipalities as a "fluoridating agent".

One has to wonder why Public Health makes such misleading statements about the source of the fluoride used in water fluoridation.

For more information on the actual product, hydrofluorosilicic acid, and where it comes from

visit here: <http://cof-cof.ca/hydrofluorosilicic-acid-origins/>
And see Fluoride Free Windsor's article about the product here:

Thank you Councillor Dilkens for asking this question and getting a straight answer from WUC administration!!

INTERNATIONAL ACADEMY OF ORAL MEDICINE & TOXICOLOGY
IAOMT Position on Fluoridation In IAOMT's ongoing examination of the toxicological data on fluoride, the Academy has made several preliminary determinations over the last 18 years, each concluding that fluoride added to the public water supply, or prescribed as controlled-dose supplements, delivers no discernible health benefit, and causes a higher incidence of adverse health effects. FLUORIDATION WILL HAVE CATASTROPHIC EFFECTS ON OUR GENERAL HEALTH - SEE THE EFFECTS OF FLUORIDE ON THE THYROID GLAND

By Dr Barry Durrant-Peatfield MBBS LRCP MRCS

MEDICAL ADVISOR TO THYROID UK 9-9-2004

Fluoridation of the nation's water supply will do little for our dental health; but will have catastrophic effects on our general health. We cannot, must not, dare not, subject our nation to this appalling risk.

Dr Barry Durrant-Peatfield

obtained his Medical degrees in 1960 at Guy's Hospital London. He left the NHS in 1980 to specialise in thyroid illnesses drawing inspiration from the work of infamous Dr Broda Barnes, at the Foundation that bears his name, Connecticut, USA.

He has been a medical practitioner for over forty years specialising in metabolic disorders during which time he became a leading authority in the UK for thyroid and adrenal management. For over twenty years he also ran a successful private clinic and became a nation-wide leading authority on thyroid and adrenal dysfunction, but clashed with establishment medicine in the management of thyroid illness. He is the author of *The Great Thyroid Scandal* (see opposite page), he currently lectures at nutritional colleges in London as well as conducting his own teaching seminars. Barry will shortly be opening a diagnostic clinic in the UK for thyroid and adrenal disorders where he will provide advice on diagnosis and treatment with special interests in nutritional aspects. For further information: Dr B Durrant-Peatfield, Surrey.

STOP FLUORIDE DISEASES BY ROBERT C. OLNEY, M.D.

REMOVE FLUORIDES FROM FOOD, WATER, AIR AND DRUGS

Extract: Fluorine is known as a powerful enzyme inhibitor and a poison, thus gradually destroying enzymatic function. This is the same process by which all vital organs are slowly and seriously damaged. The more vital the organ, the more serious the damage. Fluorine is such a powerful, destructive force that it takes only a minute amount to do great damage. This damage is then permanent to the person, and becomes gradually worse due to the accumulation of fluorine in the enzymes. Fluorine appears to be the cause of many mental and physical defects in the newborn.

From the "Archives of Environmental Health" (published by A.M.A.), February 1961, there is an interesting article compiled from authorities all over the world showing the amount of fluorides in diseased tissues. This shows that in some diseased tissues, such as aorta, tumor, cataract, etc., there are fluorides from 39 to 158 PPM compared with adjoining tissues having from 0.0 to 6.9 PPM. This is evidence that fluorine is an important factor in the cause of these diseases.

Doctors Alfred and Nell Taylor, working in the University of Texas and reporting on the effect of fluorine as a cause of cancer, made the following statement: "The terrifying

conclusion of the studies was that fluorine greatly induced cancer tumor growth. If doctors and the public can be made aware of this catastrophe, fluoridation shall quickly end. It will some day be recognized as the most lethal and stupid 'Health Program' ever conceived by the mind of man, with doctors and bloodletters not excepted." Full document:
